

Improvised drum roll

Tuesday, 19 March 2013 10:17

Liberal High School drum line students play a number on metal chair backs for students at Garfield Elementary School early this morning. The drum line stopped by to get students energized for Kansas State Assessment testing which starts across the district this week. The LHS students taught the elementary children a lesson in resourcefulness when a door malfunction made them unable to unload their drum gear from an activity bus and the metal chairs were used as a substitute.
