

Dr. Richard Garwin, nuclear physicist, stands with Class of 2013 Cadet Tyler Sutherland after speaking to NE400 cadets Feb. 21 at Thayer Hall on nuclear physics. Garwin was one of the nuclear physicists who developed the hydrogen fusion bomb named “Ivy Mike” in 1952. Liberal’s Sutherland got to escort Dr. Garwin through West Point’s nuclear classrooms and labs. Photo courtesy Kathy Eastwood/Times Herald-Record
