

ABB brings 60,000 pounds of discreet automation and motion solutions

- Special to the Leader & Times

The ABB Rolling Road Shows are on the road and in circulation within U.S. sales districts – and the 60,000 pound unit showcases a host of ABB drive, ABB and Baldor motors, PLC and motion solutions. The 70-foot-long, single-chassis vehicle was built from scratch.

The mobile unit is equipped with solutions that ABB offers to both the industrial and HVAC markets. The vehicle makes stops at distribution and customer locations which are coordinated through district manager's weeks in advance.

The ABB office in Liberal, which offers a full line of Upstream Oil and Gas solutions will host the event and also showcase what they have to offer with measurement and control products.

Event date: Friday

ABB Rolling Road Show is coming to Liberal

Wednesday, 26 June 2013 12:43

Time: 10 a.m. to 2 p.m.

Location: ABB Inc., 2705 Centennial, Liberal (North of Wal-Mart).
