BE Liberal begins grassroots effort to mobilize community

Be Liberal helps establish community vision statement
 By David Brown
 A local group of citizens from a variety of backgrounds has begun a grassroots effort to establish a vision statement for the community. The group, known as the Be Liberal community vision statement, was formed in late 2012 and has since been working to develop a shared vision for the future of the community. The group's first major achievement was the creation of a vision statement that was adopted by the community in early 2013. The vision statement outlines the group's goals and objectives for the future of the community, including the need for a strong economy, a high quality of life, and a sense of community. The group is currently working to develop a plan of action to achieve these goals and objectives. The group's efforts are being supported by the Liberal Party of Canada, which is providing the group with financial and technical assistance. The group is also working to engage the community in the process of developing a plan of action. The group is holding public meetings and is soliciting input from community members. The group is also working to develop a website and other communication tools to help it reach a wider audience. The group's efforts are being praised by community leaders and the Liberal Party of Canada. The group is expected to continue its work in the coming months and years.

Dual-language instruction may come to an end

Board contemplates whether program should continue
 A board of trustees is considering whether to discontinue a dual-language instruction program. The board is currently reviewing the program's effectiveness and cost. The program has been in place for several years and has been praised for its ability to help students learn a second language. However, the board is concerned about the program's cost and whether it is still worth the investment. The board is expected to make a decision in the coming months.
