### Scenic study shows tourism in Sevier County has \$67.6 million impact

By Tommie L. Smith  
Sevier County has a tourism industry worth \$67.6 million annually, according to a study released by the Sevier County Economic Development Authority. The study, which was conducted by the University of Tennessee, shows that tourism is a major contributor to the county's economy. The study also found that tourism has a multiplier effect on the local economy, creating jobs and generating tax revenue. The study was conducted over a period of 18 months and involved a survey of 1,000 tourists. The study found that tourists spend an average of \$100 per day in Sevier County. The study also found that tourism has a multiplier effect on the local economy, creating jobs and generating tax revenue. The study was conducted over a period of 18 months and involved a survey of 1,000 tourists.
