Snake grounds jet with 370 passengers in Sydney
A snake was found on the tarmac of a jet at Sydney airport on Monday, forcing the aircraft to be grounded for several hours. The snake was identified as a carpet snake, a common species in Australia. The incident occurred on the tarmac of a flight from Sydney to Perth. The aircraft was grounded for approximately four hours while the snake was safely removed. The airline apologized to the passengers and offered them alternative flights.

APNewsBreak: Kan. voters can be on hold for years
A Kansas election official said voters could be on hold for years if they do not appear at the polls. The official said that the state's voter registration process is slow and that it could take a long time to get new voters registered. This could be a problem for the upcoming general election. The official said that the state's election system is outdated and that it needs to be modernized. The state's election officials are working to improve the system, but it may take several years to complete the process.

Allegiant: 1 in 10 tickets affected by MD-80 rehab
Allegiant Air announced that it will be grounding its MD-80 aircraft for a major overhaul. The airline said that one out of every ten MD-80 aircraft is affected by the problem. The overhaul is expected to take several months to complete. The airline said that it will be offering alternative flights to passengers whose flights are affected by the grounding. The airline said that it is working to minimize the disruption to its passengers. The grounding of the MD-80 aircraft is a significant event for Allegiant Air, as it is one of the airline's main aircraft types. The airline has a large fleet of MD-80 aircraft and they are used on many of its routes. The grounding of the aircraft could affect many of Allegiant Air's flights. The airline said that it is working to reassign the affected aircraft to other routes. The airline said that it is also working to reassign the affected pilots to other aircraft. The airline said that it is working to minimize the disruption to its passengers.
