Feds consider permit to drill on Kansas wetlands

By Michael Coleman

The U.S. Fish and Wildlife Service is considering whether to issue a permit for the drilling of a well on the wetlands of the Kansas River. The permit would allow the drilling of a well for the purpose of testing for oil. The well is located on the Kansas River, which is a part of the Kansas River watershed. The wetlands are located in the state of Kansas. The permit is being issued by the U.S. Fish and Wildlife Service. The permit is being issued to a company that is planning to drill the well. The permit is being issued for a period of one year. The permit is being issued for the purpose of testing for oil.
