He is currently a professor of Educational Leadership at FHSU.

Watch for small creatures flying door to door tonight
Watch for small creatures flying door to door tonight. This is a common occurrence on Halloween night. The creatures are actually small insects that are attracted to the light from the door. They are not dangerous to humans, but they can be a nuisance. To avoid them, keep your door closed and use a screen door. You can also use a light trap to catch them.

Severed finger leads police to Ariz. theft suspect
A severed finger found in Liberal, Kansas, led police to a theft suspect in Arizona. The finger was found on the sidewalk in front of a business. The police were alerted by a citizen. They found the finger and took it to the lab. The lab identified it as a human finger. The police then searched for a suspect in Arizona. They found a suspect who had a severed finger on his hand. The suspect was arrested and charged with theft. The finger was returned to the family of the victim.

Illini grad talks to students from space station
Illini grad talks to students from space station. A graduate of the University of Illinois at Urbana-Champaign has been selected to participate in a project that will allow him to talk to students from the International Space Station. The project is called "Space Station Live" and is a collaboration between the University of Illinois and NASA. The graduate will be able to talk to students from the space station and answer their questions. This is a great opportunity for the graduate to share his knowledge and experience with the students.
