- **NEWS**  
The holiday season is a time of joy and celebration, but it's also a time when many accidents occur. According to the National Fire Protection Association (NFPA), the number of fires caused by candles and Christmas lights has increased in recent years. To help prevent these accidents, the NFPA offers the following tips:  
- Use candles safely: Never leave a lit candle unattended, and never use candles in paper, fabric, or other flammable decorations.  
- Use Christmas lights safely: Check for frayed wires and loose connections before using lights. Do not use lights outdoors if they are not rated for outdoor use.  
- Use decorations safely: Avoid hanging decorations from trees or other structures that could become unstable. Do not use decorations that are not labeled as fire-resistant.
