Board contemplates worst-case scenario
If bond fails, how will USD 400 cope?
A LOCAL ISSUE
By Tom Ichniowski
The board of directors of the Meade Lake Fishery Management Plan (MLFMP) is currently reviewing a worst-case scenario for the future of the lake's trout fishery. The board is concerned that the current management plan may not be sufficient to sustain the fishery in the long term, particularly in the event of a bond failure. The board is concerned that the current management plan may not be sufficient to sustain the fishery in the long term, particularly in the event of a bond failure.

Saturday is shortest day of the year
WINTER SOLSTICE
Page 5A
By Tom Ichniowski
Saturday, December 21, 2013, is the shortest day of the year in Meade Lake. The winter solstice occurs on Saturday, December 21, 2013, at 11:58 a.m. local time. The day is 14 hours, 57 minutes and 48 seconds long. The winter solstice is the day when the sun is at its lowest point in the sky, and the days are the shortest of the year.

Meade Lake to offer trout fishing

Foul weather could be trouble for travelers
By Tom Ichniowski
A major winter storm is expected to hit the region, bringing heavy snow and freezing temperatures. This could cause significant travel disruptions, including road closures and flight cancellations. Travelers are advised to check for updates and plan accordingly. A major winter storm is expected to hit the region, bringing heavy snow and freezing temperatures.
