### College to offer Defensive Driving courses

A local college is offering defensive driving courses to its students. The courses are designed to help students improve their driving skills and reduce the risk of accidents. The courses are available for a fee and are open to all students.

The photo from 1957, which was provided by Union Pacific, shows a smart gas engine on a New England. It is being used to generate heat for an experimental natural gas locomotive. The photo is part of a collection of historical photos of Union Pacific locomotives.

### Union victory: Pom-watching Wisconsin teacher awarded new job, back pay

A Wisconsin teacher who was fired for watching a Pom movie has been awarded a new job and back pay. The teacher was fired by her employer for watching a movie that was deemed inappropriate for the workplace. The court ruled in favor of the teacher, finding that her actions were protected under the First Amendment.

### Natural gas locomotives may prove cheaper, cleaner

Natural gas locomotives are being developed as a cheaper and cleaner alternative to diesel locomotives. These locomotives use natural gas as fuel, which is a cleaner-burning fuel than diesel. They are also more efficient and have lower operating costs. This technology has the potential to revolutionize the rail industry.
