### National Beef employees pay it forward

The National Beef employees are paying it forward by donating to the National Beef Foundation. The foundation is a 501(c)(3) nonprofit organization that provides financial assistance to the families of National Beef employees who have died or are disabled. The foundation also provides financial assistance to the families of National Beef employees who are in need of financial assistance.

### Semi-pickup collision severely injures Liberal man

A Liberal man was severely injured in a collision between a semi-truck and a pickup truck. The man was taken to the hospital and is in critical condition. The accident occurred on a highway near Liberal, Mo. The semi-truck was traveling in the same direction as the pickup truck. The pickup truck was in the left lane when the semi-truck was in the right lane. The semi-truck struck the pickup truck, causing it to flip over. The man was ejected from the pickup truck and was injured.

### Incumbent Linenbroker files for re-election to county commission

Incumbent Linenbroker is filing for re-election to the county commission. The election is scheduled for the next general election. Linenbroker is currently serving on the county commission and is seeking a second term. The county commission is responsible for the management and operation of the county government. The commission also has the authority to levy taxes and to issue bonds. The election will be held on the same day as the election for the county clerk and the county treasurer.

### Education efforts expand to election

Education efforts are expanding to include election. The goal is to increase voter participation and to ensure that voters are informed about the candidates and the issues. The efforts include door-to-door canvassing, phone banking, and the use of social media. The goal is to reach as many voters as possible and to provide them with the information they need to make an informed choice. The efforts are being led by a coalition of community organizations and political groups.

### College to offer Defensive Driving courses

A college is offering defensive driving courses. The courses are designed to help drivers improve their driving skills and to reduce the risk of accidents. The courses are available to both new and experienced drivers. The courses are taught by professional instructors and include a combination of classroom instruction and on-road driving. The courses are a requirement for a driver's license in many states. The college is offering the courses at a reduced rate for students who are currently enrolled in a degree program.

The photo from 1957, which was provided by Union Pacific, shows a smart gas engine on a New England. It is being used to generate heat for an experimental natural gas locomotive. The photo is part of a collection of historical photos of Union Pacific locomotives. The photo is being used to illustrate the article on natural gas locomotives.

### Union victory: Pom-watching Wisconsin teacher awarded new job, back pay

A Wisconsin teacher who was fired for watching a Pom movie has been awarded a new job and back pay. The teacher was fired by her employer for watching a movie that was deemed to be inappropriate for the workplace. The teacher was awarded a new job and back pay by a court. The court ruled that the teacher's actions were protected under the First Amendment. The court also ruled that the teacher's firing was a violation of her contract. The teacher is now working for a new employer and has received her back pay.

### Natural gas locomotives may prove cheaper, cleaner

Natural gas locomotives may prove to be cheaper and cleaner than diesel locomotives. Natural gas is a cleaner-burning fuel than diesel and is also cheaper. Natural gas locomotives are being tested on several rail lines. The tests are showing that natural gas locomotives can operate for longer periods of time than diesel locomotives. Natural gas locomotives are also quieter than diesel locomotives. The tests are also showing that natural gas locomotives are more efficient than diesel locomotives. The tests are being conducted by the Federal Railroad Administration and the National Transportation Safety Board.
