Americans react to Obama's address to nation

President Barack Obama's address to the nation Tuesday night was met with a mix of relief and skepticism as Americans grappled with the challenges ahead.

Obama's speech was widely praised for its clarity and optimism, but some critics argued that the president's promises were too vague and unrealistic.

The address came at a time of national uncertainty, with many Americans concerned about the economy and the future of the country.

Lawrence studying environmental, taxpayer benefits of natural-gas vehicles

LAWRENCE — Thousands of commuters and business travelers are already using natural-gas vehicles in the Dallas area, but the state is still studying the environmental and taxpayer benefits of the technology.

The study is being conducted by the Texas Department of Transportation and the Texas Department of Transportation's Natural Gas Vehicle Task Force.

The task force is expected to release its findings in the next few months.
