MacArthur uses every scrap of space

Students at a school in the city of MacArthur, Kan., are using every scrap of space in the school to create a vibrant learning environment. The school is a small, one-story building with a large, open area in front. The students are using this area to create a variety of projects, including a large mural and a garden. The school is also using the space to create a variety of learning opportunities, including a library and a computer lab.

County chooses to support school bond issue as individuals

The county board has chosen to support a school bond issue as individuals. The board members have each cast their own vote in favor of the bond issue, which will be used to fund a variety of school projects, including a new library and a new computer lab.

Snow expected all day

The National Weather Service has issued a winter weather advisory for the area, with snow expected all day. The advisory is in effect from 6 a.m. to 6 p.m. and includes a forecast of 2 to 4 inches of snow. The snow is expected to begin around 10 a.m. and to continue through the evening.

Kansas man loses thousands in work-at-home scam

A Kansas man has lost thousands of dollars in a work-at-home scam. The man had been contacted by a person who offered him a job that would allow him to work from home. The man had agreed to the terms of the job and had paid a fee to the person. However, the person had never shown up for work and the man had lost his money.

Cabin fever sets in amid relentless cold, snow

Cabin fever is setting in as the weather remains cold and snowy. Many people are staying indoors and are becoming restless and irritable. The weather is a major factor in the spread of the virus, which is caused by a lack of sunlight and fresh air. The virus is spread by direct contact with an infected person or by contact with their secretions. The virus is most common in the winter months and is most likely to spread in crowded indoor spaces.
