 Commission to establish building safety board

**Kids Inc. supports school bond proposal**  
 1A10-10A11

**Commission to establish building safety board**  
 A new commission will be set up to study the safety of buildings in the city, including the issue of lead paint in older homes, the city council has approved.

The commission will be headed by a city council member and will include representatives from the city, the state and the federal government. It will be charged with studying the safety of buildings in the city and making recommendations to the city council.

The commission will be set up in the next few weeks and will begin its work in the spring. It will be a key part of the city's effort to improve the safety of its buildings and protect the health and safety of its residents.

**Kids Inc. supports school bond proposal**  
 Kids Inc. is supporting a school bond proposal that would provide funding for a variety of school improvement projects, including the construction of new classrooms and the renovation of existing facilities.

The bond proposal is a key part of the city's effort to improve the quality of its schools and provide a better education for its students. Kids Inc. is committed to supporting the city's efforts to improve its schools and is pleased to support this important proposal.
