Your daily news & view for 125 years

**Liberal man dies in early Sunday morning wreck**  
A Liberal man died Sunday morning when his car rolled over on the road, killing him and his wife. The crash occurred on the 100th anniversary of the founding of the town of Liberal, Mo. The man was 55 and the woman was 48. They were on their way to work when the accident occurred. The cause of the crash is still under investigation.

**Maine woman, 80, goes skydiving on Mother's Day**  
WINDSOR, Maine (AP) — An 80-year-old woman in Windsor, Maine, became the oldest person to skydive on Mother's Day. She jumped from a plane at 10,000 feet and landed safely. She said she had always wanted to do it and that her mother would be proud of her. She was accompanied by a group of friends and family members.

**Saints salute class of 2014 graduates**  
Members of the graduating class of 2014 at Saint Francis University in Columbus, Ohio, gathered for a ceremony to honor their achievements. The ceremony was held in the university's auditorium and featured speeches from faculty members and family members. The graduates were presented with diplomas and certificates of appreciation.

**Family tests Kan. water law, claims impairment**  
A family in Kansas is testing a new water law that allows for the sale of water rights. The family claims that the law is causing water shortages and is impairing their ability to use their water. They are seeking a court order to stop the law from being enforced. The law is part of a larger effort to conserve water and to allow for the development of new water projects.

**Kansas considers revised permit for coal plant**  
The Kansas Department of Environment and Natural Resources is considering a revised permit for a coal plant. The permit would allow the plant to operate for a longer period of time and to produce more electricity. The department is also considering other measures to improve the plant's efficiency and to reduce its environmental impact. The revised permit is part of a larger effort to modernize the state's energy infrastructure.
